

Urban Craft Market at Derby Days // Load-In Timing

Hello! While your official load-in instructions will be coming closer to the show date, we wanted to check in with you to see how much time each of you will need to load-in and set up on Friday, July 24th.

You will need to have your setup completely loaded in by 2:00 p.m. at the latest, and everyone must be ready to begin vending at 4:00 p.m. sharp.

Given this, please reply to this email ASAP and let us know the earliest time that you'd need to arrive to begin setting up.

Please keep in mind that if you've communicated your electrical needs, you may need to allow extra time for the electrical team to make sure everything is working properly.

Thanks!
