

Urban Craft Market at Derby Days // More Vendor Info

Hello, Derby Days Vendors!

We are so excited that this show is just a little over a month away! We'll have more details coming your way over the next few weeks, but just a few points to start off with:

1) First Things First! Be sure to [join the Facebook event](#), and share it widely with your business and personal networks on all your social media channels! We will be boosting the event as the show gets closer; the more people we have 'interested' and 'going' before that happens, the bigger the crowds, so invite and share with your friends!

2) As you start thinking about your booth setup, we want to remind you that your booth spot is a raw 10x10 spot--you are responsible for providing your own tent, tables, etc. No electricity is available for this show, so please plan accordingly. And just a reminder that tent weights (minimum 30 lbs. per leg) are required for ALL outdoor shows.

3) Load-in will be from 7:00-9:00 a.m. on Saturday, July 12th, giving everyone an hour before "doors open" to put the finishing touches on their booths. [Please request your load-in time slot right here](#). **If you do not submit a response by June 16th**, you will be randomly assigned a time.

We are getting so excited for another great year at Derby Days! More to come!

- Lindsey, Kristen & Heather
